Needles & Notions

- 5mm (approx. US 8) **skacel by addi®**
Rocket 24" circular needle
(or size necessary to obtain gauge)
- stitch marker
- tapestry needle
- scissors
- measuring tape

Gauge

4-5 sts = 1" (accurate gauge is not crucial for this project)

Finished Measurements

9.5" wide x 71" long

Notes

The bias construction begins with three stitches, working until the desired width is achieved. You may want to weigh your MC prior to starting and once you have reached your desired width to ensure you have enough yarn remaining for the decrease section.

Scarf body is worked with a single decrease and increase on each right-side row. It is helpful to place a removable stitch marker on the right side. Once desired length is reached, decreases are made on both edges of each right-side row.

Contrasting stripes are placed by slipping the first and last stitch of the row and by adding the CC color to the second stitch of the right-side row. This keeps the edging consistent, otherwise, the colors will cross over rows.

The contrasting stipes can be worked as desired. In the model, contrasting stripes were placed in the following increments: 8", 4", 2.5", 8", 1", 1", 7.5", 2.5", 8", 1", 1". All of the 2 skeins of the MC and 25g of the CC were used in the model.
